Kiyose City's Sunflower Fields

Kiyose City is located in the Tokyo suburbs, blessed with natural environments where many agricultural lands and greenery still remains. In summertime, around 100,000 sunflowers appear in approximately 24,000m² of large agricultural lands..

The sunflower field is open to the public for a limited period of time because the farmland owner

cultivates sunflowers

as green manure and it is a very beautiful landscape.

This festival is held every year with the cooperation and good will of Ishii Farm (Mr. Yoshiteru Ishii), Koderama Farm (Mr. Kouichi Koderama), and local residents. This festival is representative of "Kiyose City's Nouaru scenery".

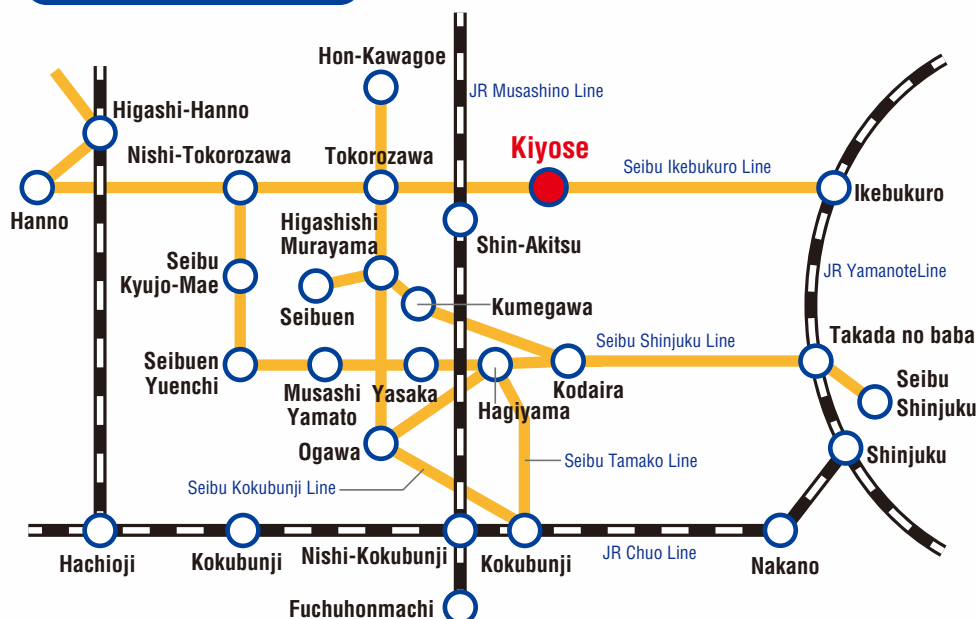

Transportation Information

Ishii Farm · Koderama Farm
3 chōme Shimokiyoto, Kiyose-shi, Tokyo
